THEORETICAL PERSPECTIVES IN PSYCHOLOGY

(CBCS – 2018-19 Academic Year Onwards)

Time : Three hours

Maximum : 75 marks

PART A — (10 × 2 = 20 marks)

Answer ALL questions.

1. Define the term personality.
2. Write short notes on learning.
3. State the ERG theory.
4. What are the different types of healing?
5. Give the strategies to improve memory.
6. What do you mean by sustained attention?
7. What is illusion?
8. Write down the laws of perceptual organisation.
9. What is an example of cognitive dissonance theory?
10. Write short note on constructivism.

PART B — (5 × 5 = 25 marks)

Answer ALL questions, choosing either (a) or (b).

11. (a) Explain the sigmund freud's approach of psycho analytical perspective.

Or

- (b) Distinguish between classical conditioning Vs operant conditioning.

12. (a) Compile the theory of needs according to McClelland.

Or

- (b) Discuss the Carl Roger's self theory of personality.

13. (a) Elucidate the Bandura's model of social learning theory.

Or

- (b) Define attention. Explain the various determinants of attention.

14. (a) Elaborate perceptual process in the light of Gestalt theory.

Or

- (b) Compare and contrast cognitive dissonance theory Vs cognitive behavioural theory.

15. (a) Discuss in detail about 20th century psychology in India and future perspectives.

Or

- (b) Write in detail about social constructivism.

PART C — ($3 \times 10 = 30$ marks)

Answer any THREE questions.

16. Discuss the cognitive balance and dissonance theory with its application.
 17. Analyse the contribution of Advaita, Buddhist, Jaina and Upanishads in the application of motivation and personality.
 18. Write in detail about the contribution of psycholinguistics towards language acquisition.
 19. Enumerate the various approaches to the study of perception.
 20. Explain in detail about the implications of Lewin's field theory.
-

LIFE SPAN PSYCHOLOGY

(CBCS 2018–19 Academic Year Onwards)

Time : Three hours

Maximum : 75 marks

PART A — (10 × 2 = 20 marks)

Answer ALL questions.

1. Mention the piagets cognitive stages development.
2. Write short note on ADHA.
3. What are the physical health problems of adulthood.
4. Distinguish biological growth Vs cognitive growth.
5. Define the term Juvenile delinquency.
6. Derive the theory of post formal thought.
7. Write short note on biological aging.
8. What is called career planning?
9. Write note on social motives.
10. Describe Communication.

PART B — (5 × 5 = 25 marks)

Answer the following questions.

11. (a) Enumerate the Erickson's psycho-social stages of development.

Or

- (b) Explain the principles of development.

12. (a) Explain in detail about motor skills.

Or

- (b) Compile and contribution of piaget's in the area of language acquisition.

13. (a) Explain the theory of love.

Or

- (b) Elucidate the stages of dying.

14. (a) Expound the role of psychoanalytic theory in personality development.

Or

- (b) Analyse the role of reinforcement in learning.

15. (a) Compare altruism and helping behaviour.

Or

- (b) Describe the types of group task performance.

PART C — ($3 \times 10 = 30$ marks)

Answer any THREE questions.

16. Analyse the Freud's psycho sexual stages of development.
 17. Explain the physical, cognitive and socio emotional development in early childhood.
 18. "Adolescence is the period of stress and storm" – Justify.
 19. Express your views on midlife crisis and transition. Suggest remedies to overcome.
 20. Discuss the concept of problem solving in group processes.

SOCIAL PSYCHOLOGY

(CBCS 2018 – 2019 Academic Year Onwards)

Time : Three hours

Maximum : 75 marks

PART A — (10 × 2 = 20 marks)

Answer ALL questions in about 50 words each.

1. Distinguish Society and Culture.
2. Write short note on Self-concept.
3. Bring out the nature of Social Psychology.
4. How is persuasion developed in an individual?
5. What are the environmental causes of aggression?
6. Mention the Strategies for attitude change.
7. Write short note on nature of group.
8. What are the factors that affect helping behaviour?
9. What do you mean by attribution?
10. What is meant by aggression?

PART B — (5 × 5 = 25 marks)

Answer ALL questions in about 250 words each.

11. (a) Describe the Survey and Experimental research methods.

Or

- (b) Briefly discuss about the factors which affect the self-esteem of an individual.

12. (a) Describe the factors determining interpersonal attraction.

Or

- (b) Enumerate the key aspects of groups in group dynamics.

13. (a) List out the remedial factors to overcome cognitive dissonance among human being.

Or

- (b) “A friend in need is a friend indeed” – Explain its Social attribution.

14. (a) Explain the levels of social behaviour in Social psychology.

Or

- (b) Describe the Kelley’s model of attribution.

15. (a) Express your views on conflict management and decision making as the important aspect of group dynamics.

Or

- (b) Explain the Strategies for attitude change.

PART C — ($3 \times 10 = 30$ marks)

Answer any THREE questions in about 500 words each.

16. Give a detailed account of Social Psychology in the new millennium.
 17. Describe the theories of group formation.
 18. Explain the attitude and its influence on behaviour.
 19. How can we prevent and control aggression? Explain.
 20. Explain the history of Social Psychology and its relationship with sociology and anthropology.

THEORIES OF PERSONALITY

(CBCS 2018-19 Academic year onwards)

Time : Three hours

Maximum : 75 marks

PART A — (10 × 2 = 20 marks)

Answer ALL questions.

1. What is personality?
2. Give a note on Psychoanalytic theory.
3. What do you mean by ego?
4. What are the sources of Human striving?
5. Mention the foundations of Neurosis.
6. Who is Carl Rogers? What is his contribution?
7. Write the nature of personality.
8. What are the healthy Adult Personality?
9. List out the Extravert characters.
10. Give a note on Neo-Freudians.

PART B — (5 × 5 = 25 marks)

Answer ALL questions, choosing either (a) or (b).

11. (a) Give suggestions for personality stability.

Or

- (b) How will you assess the personality?

12. (a) Describe the structure of personality.

Or

- (b) Discuss the inferiority feelings.

13. (a) List out the basic psychological needs.

Or

- (b) Explain development of the self in childhood.

14. (a) Describe the personality traits.

Or

- (b) Discuss the Cattell's approach to personality.

15. (a) Describe the Dimensions of Personality.

Or

- (b) Give a brief note on self-control of behaviour.

PART C — ($3 \times 10 = 30$ marks)

Answer any THREE questions.

16. Describe the process of personality development.
 17. Discuss the current research focus in personality.
 18. Explain the Freud's classic psycho analytic theory.
 19. Write in detail about stages of personality development.
 20. Describe the psychodynamic perspectives.

RESEARCH METHODOLOGY

(CBCS 2018 – 19 Academic year onwards)

Time : Three hours

Maximum : 75 marks

PART A — (10 × 2 = 20 marks)

Answer ALL the questions.

1. What do you mean by research? Give the types of research.
2. List out the factors affecting research design.
3. What are the steps involved in observation?
4. Give the advantages and limitations of schedules and questionnaires.
5. What are the methods of constructing scaling techniques?
6. How is review of literature useful in a research?
7. Mention the criteria for selection of tools.
8. What are the measures of central tendency?
9. Explain ANOVA with an example.
10. What is Ex-post facto design?

PART B — ($5 \times 5 = 25$ marks)

Answer ALL the questions.

11. (a) Explain the steps of the research process using a suitable research title.

Or

- (b) Write a note on schedule. Give its kinds and the procedure used in the formulation of a schedule.

12. (a) Define research question and research hypothesis. Describe the purpose of each and provide example.

Or

- (b) Discuss about the functions and sources of review of literature.

13. (a) Discuss the methods of sampling.

Or

- (b) Write a model research proposal.

14. (a) What are the characteristics of a normal probability curve? Give its application.

Or

- (b) Write in detail about the experimental designs in research.

15. (a) What is a frequency distribution table? Explain with a simple example.

Or

- (b) Give the purpose and conditions of major parametric and non – parametric statistical techniques using SPSS in psychology.

PART C — ($3 \times 10 = 30$ marks)

Answer any THREE questions.

16. Explain the difference between a research question and a research hypothesis and describe the appropriate use of each.
 17. Discuss in detail about the problems encountered by researchers in India.
 18. Write an elaborate essay on research methods.
 19. What are the problems encountered by researchers in India? Give solutions for any two problems.
 20. Discuss in detail about the major parametric and non – parametric statistical techniques using SPSS.

EDUCATIONAL PSYCHOLOGY

(CBCS 2018-19 Academic year onwards)

Time : Three hours

Maximum : 75 marks

PART A — (10 × 2 = 20 marks)

Answer ALL questions.

1. Mention the branches of psychology.
2. Define Behaviourism.
3. What do you mean by problem solving?
4. Give a note on creative thinking.
5. How will you relate emotion with learning?
6. Define: Educational psychology.
7. What is constructivism?
8. Write about the cognitive psychology.
9. Write a brief note on self-regulated learning cycle.
10. What is called as overall personality development?

PART B — ($5 \times 5 = 25$ marks)

Answer ALL questions.

11. (a) Explain the scope of educational psychology.

Or

- (b) Describe Watson's experiment.

12. (a) Write the applications of Ausubel's learning theory.

Or

- (b) Discuss the components of critical thinking.

13. (a) How will you motivate the students for learning?

Or

- (b) Explain research in Educational psychology.

14. (a) Discuss the behaviorist views of learning.

Or

- (b) Describe the meaning and nature of discipline.

15. (a) Give a brief note on 'socio economic status in learning'.

Or

- (b) Give the significance of Behaviour modification in school setting.

PART C — ($3 \times 10 = 30$ marks)

Answer any THREE questions.

16. Describe research methods in psychology.
 17. Differentiate classical conditioning from operant conditioning.
 18. Discuss in detail about the Piaget's theory of learning.
 19. Explain the effective teaching and learning methods.
 20. Describe the role of the college counsellor.

REHABILITATION PSYCHOLOGY

(CBCS – 2018 – 19 Academic Year Onwards)

Time : Three hours

Maximum : 75 marks

PART A — (10 × 2 = 20 marks)

Answer ALL the questions.

1. What do you mean by Rehabilitation psychology?
2. What are the basic principles of psychological rehabilitation?
3. Write short note on Augmentative therapy.
4. What are the techniques used in vocation rehabilitation?
5. Write about the concept and definition of disability.
6. State the functions of rehabilitation psychology.
7. What is genetic errors?
8. Mention the role of psychologist in disability rehabilitation.

9. Illustrate causes of cerebral palsy.
10. What are the strategies for early intervention programme?

PART B — ($5 \times 5 = 25$ marks)

Answer ALL questions choosing either (a) or (b).

11. (a) Write about the nature and scope of rehabilitation psychology.

Or

- (b) Explain the types of cocomotor disability.

12. (a) Marriage can solve the problem of mental retardation – Discuss.

Or

- (b) Discuss in detail about the purpose of evaluation for person with disabilities.

13. (a) What are the advantages of community based rehabilitation?

Or

- (b) State the uses of Assessment in special education.

14. (a) Explain the characteristics of Autism.

Or

- (b) Discuss the background characteristics of NGO's.

15. (a) Early intervention is must in rehabilitating children with disabilities. Justify.

Or

- (b) State the emerging trends in special education.

PART C — ($3 \times 10 = 30$ marks)

Answer any THREE questions.

16. Define growth, development and maturity. Bring out the principle of growth and development of person with disabilities.
 17. Briefly state the need for therapy and the principles involved in the same.
 18. What is the impact of family socio economic rehabilitation in the life of a child with mental retardation?
 19. Explain the role of multi disciplinary approach in rehabilitation process.

Maximum : 75 marks

PART A — (10 × 2 = 20 marks)

Answer ALL questions.

1. What is meant by attention?
2. Mention the importance of cognitive neuro psychology in human well being.
3. List out the process of attention formation.
4. What is semantic memory?
5. Define sensory discrimination.
6. What is brain plasticity?
7. What are the functions of procedural memory?
8. What is meant by perception?
9. How is analogies helpful in problem solving?
10. What is meant by memory distortion.

PART B — (5 × 5 = 25 marks)

Answer ALL questions.

11. (a) Write the role of selective attention in attention formation.

Or

- (b) Explain the structure of nervous system.

12. (a) Describe the importance of electrophysiological methods in studying brain function.

Or

- (b) Discuss the capacity model of attention.

13. (a) What is memory? Elucidate Iconic and Echonic memory.

Or

- (b) Explain the process of eye witness testing.

14. (a) Enumerate the pathological conditions of Alzheimer's disease.

Or

- (b) Write a note on inductive and deductive reasoning.

15. (a) Explain how experts solve problem.

Or

- (b) Explain the importance of Luria–Nebraska neuropsychological battery

PART C — ($3 \times 10 = 30$ marks)

Answer any THREE questions.

16. Enumerate the function and characteristics of sensory register.
 17. Explain the various techniques for assessing Brain function.
 18. Describe multi-store memory model of Atkinson and Shiffrin.
 19. Describe the effectiveness of computer based training program in Brain damage.
 20. Suggest some strategies useful for problem solving.

7. List out the factors related to construction of tools.
8. What do you mean by normal probability curve?
9. Define : normative survey.
10. What are the types of variables?

PART B — ($5 \times 5 = 25$ marks)

Answer ALL questions, choosing either (a) or (b).

11. (a) Write the significance of research in social sciences.

Or

- (b) What are the steps in selection and formulation of research problem? Explain.

12. (a) Write the advantages and disadvantages of sampling.

Or

- (b) Discuss the sources of data.

13. (a) List out the guidelines for making valid interpretation.

Or

- (b) Differentiate the methods from methodology.

14. (a) 'Criteria of a good problem' – Justify.

Or

- (b) What are the criteria for selection of tools? Explain.

15. (a) Describe the scales of measurement.

Or

- (b) Write the difference between parametric and non-parametric statistical techniques.

PART C — ($3 \times 10 = 30$ marks)

Answer any THREE questions out of Five.

16. Describe the types of research.
 17. What are the foundations of research? Explain.
 18. Discuss in detail about sampling design.
 19. How will you apply statistical techniques in psychology? Explain.
 20. Discuss in detail about research methods in psychology.

EDUCATIONAL PSYCHOLOGY

(CBCS 2018–19 Academic Year onwards)

Time : Three hours

Maximum : 75 marks

PART A — (10 × 2 = 20 marks)

Write ALL the questions.

1. Define : psychology.
2. What do you mean by reinforcement?
3. What is social learning?
4. Write a note on thinking.
5. Define : motivation.
6. What is morality?
7. List out the factors related to socio-economic status.
8. Who are socially disadvantaged children?
9. What do you mean by meaningful reception learning?
10. What is counselling?

PART B — (5 × 5 = 25 marks)

Write ALL questions, choosing either (a) or (b).

11. (a) Describe the branches of psychology.

Or

- (b) Explain Ivan Pavlov's classical conditioning.

12. (a) Write the applications of Ausubel's Learning theory.

Or

- (b) Explain Jerome Bruner's discovery learning.

13. (a) Give a brief note on classroom management.

Or

- (b) Discuss any five effective teaching strategies.

14. (a) How will you enhance critical thinking? Explain.

Or

- (b) 'Motivation is important for learning' – Justify.

15. (a) Discuss the Behaviourist views of learning.

Or

- (b) Discuss about the mainstreaming and inclusion for children with special needs.

PART C — ($3 \times 10 = 30$ marks)

Write any THREE questions.

16. Elaborate the contribution of educational psychology to the teaching process.
 17. Describe the behavioural learning theories.
 18. Discuss the applications of social learning theory.
 19. What are the technology based teaching strategies? Explain.
 20. Discuss the role of the college counsellor.

REHABILITATION PSYCHOLOGY

(CBCS 2018–19 Academic Year onwards)

Time : Three hours

Maximum : 75 marks

PART A — (10 × 2 = 20 marks)

Answer ALL questions.

1. Define rehabilitation psychology.
2. List down the functions of rehabilitation psychology.
3. Why do we need to provide training to the rehabilitation psychologist?
4. Explain the nature of work settings of rehabilitation psychologists.
5. Define psychological rehabilitation.
6. What do you mean by augmentative therapy?
7. Write down the stages of life span.
8. What is meant by marital rehabilitation?
9. Explain the disaster reconstruction.
10. State the etiological factors for disabilities.

PART B — ($5 \times 5 = 25$ marks)

Answer ALL questions, choosing either (a) or (b).

11. (a) Define rehabilitation psychology. Explain its scope.

Or

- (b) Explain the basic principles of psychological rehabilitation.

12. (a) Discuss the role of psychologist in disability rehabilitation.

Or

- (b) State the socio economic rehabilitation for persons with disabilities.

13. (a) Write about the type of disabilities.

Or

- (b) Classify various disabilities and explain the prevalence rate.

14. (a) Explain the history of disability rehabilitation.

Or

- (b) Write a note on multi disciplinary approach in rehabilitation.

15. (a) How do you plan and design psychological intervention?

Or

- (b) Explain the early identification of people with developmental disabilities.

PART C — ($3 \times 10 = 30$ marks)

Answer any THREE questions.

16. Analyse the historical perspectives of rehabilitation psychology.
 17. Bring out different types of disabilities and explain the role of psychologist in disability rehabilitation.
 18. State the areas of rehabilitation process in detail.
 19. Explain the multi disciplinary approach to rehabilitation.
 20. Discuss the factors influencing personality development of disabled individuals.

COGNITIVE NEURO PSYCHOLOGY

(CBCS 2018–19 Academic Year onwards)

Time : Three hours

Maximum : 75 marks

PART A — (10 × 2 = 20 marks)

Answer ALL questions.

1. What is Cognition?
2. Write the functions of cerebellum.
3. What is degenerative neurological disorder?
4. How is cognition important for concept formation?
5. What are the functions of procedural memory?
6. What is demantia?
7. Define perceptual constancy.
8. What is the function of stroop effect?
9. Define the term attention.
10. Mention the functions of permission schema.

PART B — ($5 \times 5 = 25$ marks)

Answer ALL questions, choosing either (a) or (b).

11. (a) Describe the implications of various modes of information processing.
Or
(b) Discuss selective attention theory.
12. (a) Explain the various functions of nervous system.
Or
(b) Elucidate the causes of forgetting.
13. (a) State the process of visual pattern recognition.
Or
(b) Describe briefly about neurogenerative disorders.
14. (a) Narrate the causes for perceptual illusion.
Or
(b) Write a note on inductive and deductive reasoning.
15. (a) Explain the process of eye witness testing.
Or
(b) Suggest some preventive measures for Parkinson disease.

PART C — ($3 \times 10 = 30$ marks)

Answer any THREE questions.

16. Explain the various techniques for assessing the function of brain.
17. Explain the process of development of language and outline the neural basics of language.

18. Describe the effectiveness of computer based training program in brain damage.
 19. Explain the fundamentals of neural network modelling.
 20. Suggest the measures to improve memory.

2. What is hypothesis?
3. What do you mean by Biased sample?
4. List out the effective interview techniques.
5. Give a note on “Scaling technique”.
6. What do you know about methodology?
7. What is criticism?
8. What is tools in research?
9. Give the difference between skewness and kurtosis.
10. Write the meaning of correlation.

PART B — ($5 \times 5 = 25$ marks)

Answer ALL questions, choosing either (a) or (b).

11. (a) Elaborate the significance of research in social sciences.

Or

- (b) Discuss about the factors affecting research design.

12. (a) Write the essentials of good sampling.

Or

- (b) Describe the modes of data collection.

13. (a) Give the guidelines for making valid interpretation.

Or

- (b) Write the significance of research.

14. (a) List out the criteria of a good problem.

Or

- (b) Describe the different types of graphs.

15. (a) Give a note on “Normal probability curve”.

Or

- (b) Describe the types of variables.

PART C — ($3 \times 10 = 30$ marks)

Answer any THREE out of five questions.

16. Describe in detail about types of research.
17. Discuss the identification, selection and formulation of research problem.

18. Elaborate the sources of data.
 19. Briefly explain the foundations of research.
 20. Write about the experimental research.

PART A — (10 × 2 = 20 marks)

Answer ALL the questions.

1. Write the types of variables.
2. What is quantitative analysis? Give example.
3. What are the difficulties in ex-post facto research?
4. What is the difference between one-way and two-way ANOVA?
5. Write the formula for finding range.
6. What is meant by case study?
7. Write the characteristics of a research tool.
8. Write the uses of SPSS.
9. Define Historical Research.
10. Write the meaning of hypothesis.

PART B — ($5 \times 5 = 25$ marks)

Answer ALL questions, choosing either (a) or (b).

11. (a) What are the sources of hypotheses?

Or

- (b) What are the methods of research design evaluation?

12. (a) Write the advantages and limitations of schedule.

Or

- (b) Write the characteristics of good research.

13. (a) Explain the factors affecting the sample.

Or

- (b) Write a short note on sources of data collection.

14. (a) Write a note on stages of research.

Or

- (b)

$x:$ 10 8 12 15 8 10

$y:$ 7 4 6 7 9 8

Find the rank correlation coefficient using the above data.

15. (a) Write the factors affecting the response to a questionnaire.

Or

- (b) What are the problems encountered by researchers in India?

PART C — ($3 \times 10 = 30$ marks)

Answer any THREE questions.

16. Explain the different types of tools.
17. Write the meaning and significance of sampling. Discuss the important types of probability sampling.
18. What do you mean by sample design? Describe various steps in sampling design and research design.
19. Discuss in detail factorial design and quasi-experimental designs, with suitable examples.
20. Compute mean and quartile deviation for the data given below :

Class	Frequency
0-10	10
10-20	10
20-30	18
30-40	33
40-50	18
50-60	06
60-70	05
	N = 100

EDUCATIONAL PSYCHOLOGY

(CBCS 2018 – 2019 Academic Year Onwards)

Time : Three hours

Maximum : 75 marks

PART A — (10 × 2 = 20 marks)

Answer ALL questions.

1. State the meaning of psychology.
2. What is problem solving?
3. Define Thinking.
4. Give a short notes on 'Value theory'.
5. What do you mean by 'Language Acquisition'?
6. What is classroom management?
7. Define Intelligence.
8. What do you know about Cognitive Psychology?
9. How to create effective learning environment?
10. Define career counseling.

PART B — ($5 \times 5 = 25$ marks)

Answer ALL questions, choosing either (a) or (b).

11. (a) Write a history of Psychology.

Or

- (b) Write the difference between classical conditioning and operant conditioning.

12. (a) Discuss the Gestalt theories of learning.

Or

- (b) How can you help the children to be more creative?

13. (a) Write some thought on emotion and learning.

Or

- (b) List out the behaviourist views of learning.

14. (a) Explain about the learner differences.

Or

- (b) Describe Jerome Bruner's discovery learning.

15. (a) Discuss the methods and technical issues in the assessment of students.

Or

- (b) Give a brief note on 'Overall Personality Development'.

PART C — ($3 \times 10 = 30$ marks)

Answer any THREE questions.

16. Discuss the psychology of learning and education.
 17. Explain the theory of meaningful learning.
 18. Describe the relationship between Motivation and Learning.
 19. Write about the research in educational psychology.
 20. Discuss about the children with special needs.

REHABILITATION PSYCHOLOGY

(CBCS 2018 – 2019 Academic Year Onwards)

Time : Three hours

Maximum : 75 marks

PART A — (10 × 2 = 20 marks)

Answer ALL questions.

1. Define Rehabilitation Psychology.
2. List the basic principles of Psychological Rehabilitation.
3. Give the role of psychologist in disability rehabilitation.
4. Write note on vocational rehabilitation.
5. List the classification of various disabilities.
6. What are the goals and objectives of rehabilitation?
7. What is cognitive behaviour therapy?
8. List the characteristics of organisation.
9. What is training need analysis?
10. List the function in special education.

PART B — (5 × 5 = 25 marks)

Answer ALL questions, choosing either (a) or (b).

11. (a) Elaborate the historical perspectives in Rehabilitation Psychology.

Or

- (b) Describe the functions of Rehabilitation Psychology.

12. (a) Explain the types of community based rehabilitation.

Or

- (b) Explain the etiological factors for disabilities.

13. (a) Explain family and marital rehabilitation.

Or

- (b) Discuss the restorative techniques in psychological intervention.

14. (a) Discuss the role of psychologist in disability rehabilitation.

Or

- (b) Explain the life span development of persons with disability.

15. (a) Explain the aims and objectives of special education.

Or

- (b) Discuss the factors influencing personality.

PART C — ($3 \times 10 = 30$ marks)

Answer any THREE questions.

16. Discuss the various methods in Rehabilitation Psychology.
 17. Explain Psychoanalytic therapy and client centered therapy.
 18. Discuss the various types of disability.
 19. Explain the multi disciplinary approach to Rehabilitation.
 20. Discuss the packages for various disabilities along with the services and programmes for disabled individual in India.

COGNITIVE NEURO PSYCHOLOGY

(CBCS 2018 – 2019 Academic Year Onwards)

Time : Three hours

Maximum : 75 marks

PART A — (10 × 2 = 20 marks)

Answer ALL questions.

1. Define cognitive neuro psychology.
2. What is meant by memory?
3. Write short note on forgetting.
4. What is meant by metacognition?
5. Define Reasoning.
6. What is permission schema?
7. What is neuro imaging?
8. What do you mean by basal ganglia?
9. What is working memory?
10. Define perception.

PART B — ($5 \times 5 = 25$ marks)

Answer ALL questions, choosing either (a) or (b).

11. (a) Describe the capacity allocation model schema theory.

Or

- (b) Explain the functions of nerve cells.

12. (a) Describe the memory construction.

Or

- (b) Explain the neural networks model.

13. (a) Describe the effect of encoding context.

Or

- (b) Discuss the Wason selection task.

14. (a) Explain the mental imagery.

Or

- (b) Describe the role of culture perceptual organization.

15. (a) Discuss the functional modularity.

Or

- (b) Explain the methods of localization of cognitive functions in the Brain.

PART C — ($3 \times 10 = 30$ marks)

Answer any THREE questions.

16. Describe the neuropsychological battery luria Nebraska.
 17. Explain the concept of metacognition and its implications.
 18. Discuss the Weber's law Steven's power law.
 19. Explain the problem solving and its methods.
 20. Describe the template-matching model.

COUNSELLING THEORIES AND TECHNIQUES

(CBCS 2018 – 2019 Academic Year Onwards)

Time : Three hours

Maximum : 75 marks

PART A — (10 × 2 = 20 marks)

Answer ALL questions.

1. What do you mean guidance and counselling?
2. List the tools for assessment in counselling.
3. What are the stages of counselling process?
4. What is cognitive behaviour modification?
5. What is self instructional training?
6. What do you mean relaxation technique?
7. What do you mean psychoanalytic theory according to Freud?
8. Write note on free association.
9. Define group counselling.
10. What is collaborative empiricism?

PART B — (5 × 5 = 25 marks)

Answer ALL questions, choosing either (a) or (b).

11. (a) Explain the importance of consciousness and unconsciousness according to Freud.

Or

- (b) Explain the role of anxiety in psychoanalytic approach.

12. (a) Explain self psychology and object relations theory.

Or

- (b) Discuss the contributions and limitations of person centered approach.

13. (a) Explain the five layer of neurosis represent in Gestalt approach.

Or

- (b) Describe Egan's Model.

14. (a) Explain the functions of the counsellor.

Or

- (b) Explain the characteristics of an effective counsellor.

15. (a) Explain the ethics in counselling.

Or

- (b) Discuss the Eclectic approach in counselling.

PART C — ($3 \times 10 = 30$ marks)

Answer any THREE questions.

16. Explain the strength and limitations of behavioural approach.
 17. Explain the methods used for relaxation and its usefulness in therapy.
 18. Explain the difference between positive reinforcement, negative reinforcement and punishment.
 19. Explain the rational emotional behaviour therapy.

THEORIES OF PERSONALITY

(CBCS 2018 – 19 Academic Year Onwards)

Time : Three hours

Maximum : 75 marks

PART A — (10 × 2 = 20 marks)

Answer ALL questions.

1. Write a note on personality change.
2. What are the characteristics of personality traits according to Allport?
3. Explain the sources of inferiority complex in childhood.
4. What are the two layers of unconscious proposed by Carl Jung?
5. Is anxiety a foundation for neurosis?
6. Mention the factors given by Carl Roger to promote healthy self-concept.
7. Write about the constitution traits and environmental mould traits.
8. Explain self-efficacy with examples.

9. What are the different corollaries that explain how we construe events?
10. What are reinforcers? Name the schedules of reinforcement.

PART B — ($5 \times 5 = 25$ marks)

It consists of Five questions with either or choice.

Each question carries 5 marks.

11. (a) What factors promote personality stability and change?

Or

- (b) Illustrate the style of life and birth order.

12. (a) Discuss about the current research focus in personality psychology.

Or

- (b) “A child’s security depends entirely on how the parents treat the child” – Explain.

13. (a) What is the distribution and utilization of psychic energy?

Or

- (b) What are the sources of information about Self-efficacy? Write down the conditions for increasing self-efficacy.

14. (a) What are the personality factors that were described by cattell?

Or

- (b) Explain Mc Crae and Costa’s big five personality factors.

15. (a) Do habits and attitudes initiate and guide human behaviours? Give illustration.

Or

- (b) Explain Freudian Psychoanalysis with suitable illustrations.

PART C — ($3 \times 10 = 30$ marks)

Answer any THREE questions out of five.

Each question carries 10 marks

16. Explain the psychosexual stages of development.
17. What according to Maslow are innate needs that activate and direct human behaviour?
18. Elaborate on the corollaries of personal construct theory proposed by George Kelly.
19. Write in detail about the personality dimensions of Hans Eysenck.
20. Discuss the role of behaviour modification techniques in the treatment of mentally challenged individuals.

RESEARCH METHODOLOGY

(CBCS – 2018 – 19 Academic Year Onwards)

Time : Three hours

Maximum : 75 marks

PART A — (10 × 2 = 20 marks)

Answer ALL the questions.

1. Define Research. What is the purpose of Research?
2. Explain the types of hypothesis.
3. Enumerate the factors affecting the size of the sample.
4. Give the techniques of an effective interview.
5. Explain the process of interpretation.
6. Write a note on the significance of research.
7. What are the ethical principles involved in animal research and research with human beings?
8. What is the normal probability curve? Where can we use it?
9. Explain Regression and rediction.
10. How will you formulate a research hypothesis? Give example.

PART B — ($5 \times 5 = 25$ marks)

Answer ALL the questions.

11. (a) Explain the types of research with suitable examples.

Or

- (b) Write a note on the modes of data collection.

12. (a) What do you mean by skewness and kurtosis?

Or

- (b) Discuss about the problems encountered by researchers in India.

13. (a) What are the advantages and disadvantages of the large sample sizes?

Or

- (b) Define and state a research problem. Elucidate the criteria of a good problem.

14. (a) What are the different types of questionnaire? Mention the factors affecting the response of a questionnaire.

Or

- (b) How will you define the variables operationally? Explain the types of variables.

15. (a) Describe the analysis of variance. Give an example for one-way ANOVA.

Or

- (b) Interpret the major parametric statistical techniques using SPSS.

PART C — ($3 \times 10 = 30$ marks)

Answer any THREE of the following.

16. What is the importance of data analysis? Discuss the process of data analysis.
 17. Write a model research report.
 18. What is the principle of sampling? Explain the methods of sampling elaborately.
 19. How is the review of literature being utilized in the field of corporate management?
 20. Discuss in detail about research designs.

EDUCATIONAL PSYCHOLOGY

(CBCS – 2018 – 19 Academic Year Onwards)

Time : Three hours

Maximum : 75 marks

PART A — (10 × 2 = 20 marks)

Answer ALL the questions.

1. Write a brief note on the branches of psychology.
2. What do you mean by connectionism in behavioral learning?
3. How will you apply social learning theory for effective learning process?
4. Define creative thinking. Give an example.
5. What is constructivism?
6. Explain with an illustration of solving a problem behaviour in the classroom.
7. What is the meaning of intelligence? Define.
8. Write the factors which affect the self-regulated learning.

9. Compare and contrast co-operative and collaborative learning.
10. How will you counsel a person with interpersonal relationship issues?

PART B — ($5 \times 5 = 25$ marks)

Answer ALL the questions.

11. (a) Define psychology. Discuss the branches of psychology in detail.

Or

- (b) Do emotion affect learning? If yes or no, Justify your answer.

12. (a) Enumerate and explain the implications of Thorndike's theories of behavioural learning.

Or

- (b) How will you develop morality, social responsibility and self-control in students to improve their learning?

13. (a) Interpret Albert Bandura's cognitive theory of learning.

Or

- (b) Elucidate the styles of problem behaviour management.

14. (a) Write in detail about the main streaming and inclusion of socially disadvantaged children.

Or

- (b) What is classical conditioning? How will you apply it in the classroom teaching?

15. (a) Explain the methods and technical issues in the assessment of students for effective teaching and learning process.

Or

- (b) Illustrate the role of a career-counsellor.

PART C — ($3 \times 10 = 30$ marks)

Answer any THREE of the following.

16. What do you mean by the schedules of reinforcement? Discuss Watsan's experiments in relation to the behavioural learning.
17. Interpret Piaget's theory of intellectual development using atleast two case examples.
18. Individual differences in educational performance are strongly related to differences in intelligence. Justify.
19. Explain David Ausubel's learning theory of Jerome Bruner's discovery learning.
20. Why is contingency management important for many students in school atmosphere? Discuss.

SECTION A — (10 × 2 = 20 marks)

Answer ALL the questions.

1. Define Rehabilitation Psychology.
2. Write short note on Marital rehabilitation.
3. Mention the objective of rehabilitation.
4. Give a account on Diaster rehabilitation.
5. Write about the causes of mental retardations.
6. What do you mean by restorative techniques?
7. What is early intervention programme?
8. What is the need for counselling and list the principles involved in counselling?
9. What are the objectives of CBR?
10. Mention any two National Institutes Serving the differently abled.

SECTION B — (5 × 5 = 25 marks)

Answer ALL the questions.

11. (a) Describe the historical perspectives in Rehabilitation psychology.

Or

- (b) Explain the process of speech development.

12. (a) What are the strengths weakness of community Based Rehabilitation?

Or

- (b) Enumerate the role of therapy in the life of mental retardation.

13. (a) State the advantages of screening and early identification of people with developmental disabilities.

Or

- (b) Explain the functional assessment test with reference to the Indian context.

14. (a) Write the importance of family intervention.

Or

- (b) Write note on Cognitive Behaviour therapy.

15. (a) State the prenatal causes for Autism.

Or

- (b) Write short notes on:

- (i) Therapeutic services
- (ii) Restorative techniques

SECTION C — (3 × 10 = 30 marks)

Answer any THREE questions.

16. How would you organise an awareness programme in a community aiming at disability prevention?
 17. Enumerate the topographical classification of cerebral palsy.
 18. Counselling acts as the backbone of the rehabilitation process – Discuss.
 19. Bring out the need and importance of vocational therapy and rehabilitation for children with disability.
 20. What do you mean by assistive devices? Discuss the application and maintenances of assistive devices in a special education classroom.

THEORETICAL PERSPECTIVES IN PSYCHOLOGY

(CBCS 2018-19 Academic Year onwards)

Time : Three hours

Maximum : 75 marks

PART A — (10 × 2 = 20 marks)

Answer ALL questions.

1. Define motivation.
2. What is learning?
3. State the ERG theory.
4. What do you mean by therapy?
5. Give a note on 'cognition'.
6. Define: Memory.
7. What is attention?
8. Define: Perception.
9. What do you mean by cognitive dissonance?
10. Write a note on 'Social constructivism'.

PART B — ($5 \times 5 = 25$ marks)

Answer ALL questions, Choosing either (a) or (b).

11. (a) Describe Neo-Freudian approaches to personality.

Or

- (b) Explain Pavlov's classical conditioning.

12. (a) Discuss the Kelly's personal construct.

Or

- (b) List out the applications of social learning theory.

13. (a) Write the strategies to improve memory.

Or

- (b) Give a note on 'illusion'.

14. (a) Describe the laws of perceptual organizations.

Or

- (b) Explain the Roger's self-theory.

15. (a) Discuss about the 20th century psychology in India.

Or

- (b) Write the role of constructivism in psychological approaches.

PART C — ($3 \times 10 = 30$ marks)

Answer any THREE questions.

16. Describe Sigmund Freud's approach in towards psycho analytical perspective.
17. Discuss in detail about Maslow's Hierarchy of motives.

18. Explain the views of cognitive balance and dissonance theory.
 19. Write the role of psycholinguistics in language acquisition.

ENVIRONMENTAL PSYCHOLOGY

(CBCS 2018 – 2019 Academic Year Onwards)

Time : Three hours

Maximum : 75 marks

SECTION A — (10 × 2 = 20 marks)

Answer ALL the questions.

1. State the nature of environmental psychology.
2. What is environmental perception?
3. Define: Over population.
4. Write the difference between weather and climate.
5. What do you mean by sustainable design?
6. Define: Pollution
7. List out the role of media towards better environment.

8. What is environmental degradation?
9. Mention the physical stressors.
10. State the research methods in environmental psychology.

SECTION B — (5 × 5 = 25 marks)

Answer ALL the questions, choosing either (a) or (b).

11. (a) Write the scope of environmental psychology.
Or
(b) Give a note on 'Spatial Cognition'.
12. (a) List out the effects of physical environment on health.
Or
(b) Suggest the solutions to environmental problems.
13. (a) Elucidate the Baker's environmental psychology.
Or
(b) Write the NGO's contribution for changing behavior to save the environment.
14. (a) What are the reciprocal relationship between human beings and natural world?
Or
(b) Describe the theories of environmental perception.
15. (a) "Tobacco smoke as a pollutant" - justify.
Or
(b) How will you evaluate the adequacy environmental research?

SECTION C — ($3 \times 10 = 30$ marks)

Answer any THREE questions.

16. Describe the concept of environmental psychology.
 17. Discuss about the environmental stress and health.
 18. Explain the theoretical orientation of environmental psychology.
 19. What are your responsibility in society towards environmental pollution?
 20. What do you mean by stress? How will you tackle stress in research?
